The Portable Cricket Mat

Notts Sport's continued research and development programme ensures perfection is strived for. With our roll out mat product, we believe we have gone some way to achieving that.

The hard wearing backing means that the mat lies flat, is non-slip and provides a more even bounce. The mat is therefore ideal for coaching player technique and allowing batsmen to play their shots with confidence. It will also help bowlers to learn control and, as the surface takes spin, slow bowling is encouraged too.

The mats colour has been specially developed to be easy on the eye, so as to enable the batsman to view the ball more easily. The surface is non-reflective, easy to clean and accepts numerous forms of line marking.

The mats colour has been specially developed to be easy on the eye, so as to enable the batsman to view the ball more easily. The surface is non-reflective, easy to clean and accepts numerous forms of line marking.

High density surface offers a long lifespan and extra player comfort.

Surface selected to give increased spin and seam movement along with an excellent underfoot grip.

Polymer backing grips base to prevent sliding/movement.

Mat offers a more realistic bounce and lays flat due to added shock pad scrim

2nd January 2016

Prices

8m x 2m	£623.04
9m x 2m	£700.92
10m x 2m	£778.80
